

Horizontal Wrapping Systems – Automatic

Maximum flexibility & efficiency.

Minipack's Plexi 30 & 60 are designed for the mailing as well as the manufacturing industries. Both models are automatic horizontal packaging machines with high productivity of up to 30 or 60 wraps per minute, and work with clear or printed PE or LDPE film rolls. Linked with the Tunnel 50 Twin it is possible to package any typical product sizes of CD, DVD, video games, components, magazines, house and food products.

Sealing Technology based on your needs

The Plexi Systems can be used with PE, PP, HDPE and Polyolephine films. During the sealing process, no waste of film occurs and the plain film roll can be changed quickly.

Performance powerful and reliable

Minipack offers the perfect solution for speed and volume requirements. The Plexi Systems allow for up to 60 wraps per minute.

Display, Controls & Programmability

Both models offer 10 user-settable programs for temperature control and conveyor speed. Audible signals and codes on the digital display let the operator know when special attention is needed. User-friendly and safe design lets the operator access all parts from the front.

SMART TECHNOLOGY FEATURES

- Innovative sealing system that seals different kinds of film: polyethylene (PE) and low density polyethylene (LDPE)
- 10 customizable and storable programs on the digital control panel
- Reduced film waste by tailor made bags
- Programmable sealing blade pre-heat
- Electronic temperature control
- Energy-saving controls
- Balanced heating element of sealing blade
- Automatic bag length regulator with photocell
- Audible trouble signal for operator
- Automatic feeding system
- Designed to be linked with a shrink tunne
- Electrostatic sealing device (optional)

PLEXI 60

Manufacturing

Mailing

Six good reasons to choose minipack:

- » Focused on value and user-centered innovation
 - » Over 40 years track record as innovator
- » Reliability and cost advantage over the long run
 - » Committed to customer service and support
- » Certified quality manufacturing – ISO 9001:2000
- » Worldwide distribution network and technical assistance
